

The vineyards are cultivated by us, a small group of committed winemakers from the Bordeaux region, engaged in organic agriculture, respecting both people and the Earth. What's more, thanks to our virtuous farming practices, our wines are guaranteed to be free from pesticide residues. It's quite simple, actually: our wines are good, very approachable, and indulgent!

Ironda, The Swallow at our place, in Gironde. A powerful symbol, this mythical bird synonymous with freedom, courage, tenacity, loyalty, and nature... It is making a comeback in our countryside, and we are proud to be part of it!
