TUTIAC, HELP PROTECT THE OCEAN, AOC Bordeaux, Rouge, 2022

AOC Bordeaux, Bordeaux, France

A great Bordeaux wine. Not just because it is delicious (and it is!), but a wine with a real impact on the environment with an ecological packaging and an innovative cork.

PRESENTATION

TUTIAC uses a new cork made from recycled plastic waste diverted from the oceans, called Ocean-Bound Plastic (OBP).

This cork is designed to protect wine and help protect the oceans, by encouraging the collection of waste material and therefore reducing the volume and continual risks of pollution.

By using this recycled cork for his wine, TUTIAC guarantees that a portion of its profits is used to support ocean conservation projects!

TERROIR

Clay-limestone
